

SUPPORT MESSAGE BY

**REAR ADMIRAL FADHIL BIN ABDUL RAHMAN**  
**DIRECTOR GENERAL**  
**THE DEFENCE CYBER AND ELECTROMAGNETIC DIVISION**

I am privileged to announce my strong support for CyberDSA 2025, set to be held from September 30<sup>th</sup> to October 2<sup>nd</sup>, 2025, at the Malaysia International Trade and Exhibition Centre (MITEC), Kuala Lumpur. This event is vital for fortifying Malaysia's cybersecurity capabilities and ensuring the security of our national interests in a rapidly evolving digital environment.

In today's landscape, where cyber threats are intricate and pervasive, we must adopt innovative strategies tailored to our unique challenges. CyberDSA 2025 provides an essential forum for cyber defence professionals, technology leaders, and cybersecurity experts to come together. This collaboration is essential for developing innovative solutions that strengthen our cybersecurity framework in the face of emerging threats.

We are faced with significant challenges, from defending our critical infrastructure to managing the complexities of the electromagnetic spectrum. Engaging in this dialogue at CyberDSA 2025 will empower us to not only confront these challenges but also to set new standards for resilience and security.

By working together, we can elevate our national security strategies and reinforce our position as a leader in cybersecurity.

Let us seize this opportunity to reaffirm our commitment to a secure digital future. CyberDSA 2025 is more than just an exhibition; it is a commitment to safeguarding our nation and its interests.
