INTRODUCTION

CYBER DSA 2025

30 SEPT - 2 OCT 2025 | MITEC, KUALA LUMPUR

Southeast Asia's digital economy is set to reach \$363 billion in 2025. As the world becomes increasingly dependent on digitalization, it is inevitable for governments and businesses to protect and secure its assets and provide real economic value to the global market.

Cyber Digital Services, Defence and Security Asia (CyberDSA) aspires to be the leading content-driven event, serving key stakeholders who are protecting national, public and business interests in cyberspace. It aims to connect decision makers in governments and private sectors to accelerate their cyber defence and security agenda. This event aims to impart latest knowledge and intriguing insights about cybersecurity while showcasing cutting edge technologies that would safeguard digital economies and foster global competitiveness.

Such amendments are deemed necessary to ensure the smooth execution and quality of the event. The organiser will make every effort to communicate any significant changes in a timely manner.

EFFECTIVE IT DISASTER RECOVERY

Justin Francis

Principal ITDR Strategist

(25 years in IT Disaster Recovery - From Strategy to Execution)

In an era of relentless cyber threats, digital dependency, and regulatory scrutiny, IT Disaster Recovery is no longer optional — it's mission-critical. This power-packed seminar equips technology leaders, risk managers, and continuity professionals with the strategies, frameworks, and tools to safeguard core IT systems and data. Whether you're facing ransomware, system failure, or cloud disruption, this session will walk you through end-to-end recovery planning aligned with ISO 22301, ISO 27031, and local compliance mandates such as BNM RMiT and NACSA guidelines.

Definition of IT Disaster Recovery

- Key Concepts: RTO, RPO, DRP, BC, Crisis Management
- Importance of IT DR in today's digital environment
- Regulatory & compliance landscape

Developing an IT Disaster Recovery Plan

- Identifying critical systems & applications
- Conducting Business Impact Analysis (BIA)
- Risk assessment & threat modelling
- Creating the DR Plan structure (Vol 1 & Vol 2)

Testing & Validating IT DR Plans

- Types of DR tests (tabletop, simulation, failover)
- Planning and executing DR tests
- Reporting and lessons learned

DR in Modern IT Landscapes

- DR in Cloud & SaaS environments
- Cyber incident DR (e.g., ransomware recovery)
- Emerging trends (AI-driven DR, automation)

DR Testing Orchestration using Zepilot

- Preparing & Managing Test Scripts
- Execution & Monitoring DR Testing
- Reporting

EFFECTIVE CRISIS MANAGEMENT, COMMUNICATION & LEADERSHIP**Dr. Kavitha Muthy***Crisis Leadership Strategist & Principal Trainer**(Expert in Crisis Management, Communication & Executive Decision Making)*

This seminar equips you with applicable insights and practical skills for navigating critical moments – before, during and after a crisis strikes. You will go through a hands-on learning journey, grounded in disruption response theory and psychology. You will learn how to better understand and address your own cognitive biases, communicate effectively in turbulent times, restore trust with key stakeholders, draw meaningful conclusions from previous disruptive events, and prepare for potential future setbacks.

Overview of Crisis Management

- Learn about Different Types of Crisis
- Understanding Crisis Management and Planning
- Business Continuity Management vs Crisis Management
- Crisis Management Team Structure & Task Force, Attributes
- Team Appointment & Preparation

Crisis Management Before, During & After

- Long Range Preparation
- Crisis Management Plan Implementation
- Long Term Recovery
- Understand Emergency Response
- Potential risks, hazards, and threat scenarios

Leadership in Times of Crisis

- Understanding Crisis Leadership
- Decision Making Amid Uncertainty
- Emotional Intelligence Attributes of Leaders to Manage Crisis
- Power vs Competency

Crisis Communication & Process

- Understanding Crisis Communication and it's Challenges
- Identify Spokesperson
- Determine Communication Mode & Channel
- Training for Spokesperson, Crafting Messages
- Crisis Communication Team, Roles & Responsibilities

Developing Crisis Communication Plan

- Crisis Communication Plan Structure & Sample with TOC
- Case Study & Press Conference Exercise
