

**YB FAHMI FADZIL
MINISTER OF COMMUNICATIONS AND DIGITAL**

I would like to extend my support to the 2nd Edition of Cyber Digital Services, Defence & Security Asia (CyberDSA) 2024, held from 6 to 8 August at the Kuala Lumpur Convention Centre.

In the present era of digital advancement, technology's rapid progress has opened unprecedented opportunities for everyone. However, it has also presented us with new challenges. Cyber threats pose serious risks to our nation's economy, digital infrastructure, and security. The consequences of cyber-attacks can lead to economic disasters, disrupt vital services, compromise sensitive information, and undermine public trust.

Given the ever-evolving nature of cyber threats, it is important for nations to remain vigilant. CyberDSA 2024 provides an invaluable platform for global experts, practitioners, and stakeholders to convene, share knowledge, insights, and solutions. This annual event serves as a catalyst to enable better collaboration and to foster innovation in advancing cyber security capabilities.

As Minister of Communications and Digital, I look forward to seeing CyberDSA achieve its objectives of increasing awareness, advocating best practices and presenting new technological approaches.

Thank you to the organizers, strategic partners, and participants of CyberDSA 2024 for their unwavering commitment to delivering a world-class event for the benefit of the digital and security communities.

Best wishes.
