

**REAR ADMIRAL DATO' PAHLAWAN MOHD FADZLI KAMAL BIN MOHD MOHALDIN
DIRECTOR GENERAL OF DEFENCE CYBER AND ELECTROMAGNETIC DIVISION**

As we navigate through an era of continuous technological advancements and escalating cyber threats, the importance of protecting our cyber domain grows ever more crucial. CyberDSA'24 stands as a key platform, bringing together a diverse mix of experts, practitioners, and enthusiasts.

This convergence is necessary for governments and private sectors to exchange practical ideas to develop innovative cyber defence strategies. The Defence Cyber and Electromagnetic Division (DCED) continues to support such collaborative efforts to fortify our cyber defences for the nation together.

CyberDSA'24 is expected to be a strategic meeting point for deep dive insights, encompassing the latest technological innovations, government policy development, threat intelligence, and risk management. This is not just an opportunity to enhance cyber defence and security, but also to strengthen the bonds among dedicated professionals and communities protecting our digital economies.

I encourage and invite all participants to take this invaluable opportunity to interact, learn, and be inspired. The knowledge and insights gained at CyberDSA, is far more than mere information. It serves as a checkpoint to reinforce our commitment to support the development of a more secure digital world.

Looking forward to meeting you all at CyberDSA 2024 soon.
